### PROJECTS

#### • My WellSpent Insurance (Health Care Sector - USA Region)

- Developed a comprehensive insurance portal for managing Primary Care, Dental, and Vision coverage in USA market, featuring dedicated portals for user onboarding, claims processing, commissions, payments, managing Providers, Care Benefits. Optimized a portal for seamless mobile responsiveness, ensuring a user-friendly experience across all devices.
- Built and optimized user flows for diverse roles (agents, groups, employees, providers, etc.) to enhance the user experience. Developed external APIs for third-party integrations and contributed to DevOps initiatives, supporting infrastructure scalability.

#### • Care Career Health Care Job Portal (Health Care Sector - Australia Region) - Engineered a specialized job portal for healthcare job opportunities in Australia, with features for job posting, searching, hiring process and application management. Streamlined the recruitment process for both employers and job seekers, enhancing functionality.

#### • Fitupme Health Workout and Diet Website and Hybrid Application (Android & IOS) -Led the end-to-end development of a hybrid mobile application and web platform for health and fitness programs, featuring a points-based gamification system and subscription plans. Designed an intuitive admin panel to manage workouts, diet plans, user data, and payments, delivering a seamless experience across Android, iOS, and web platforms.

#### • Additional Projects - Collaborated on frontend development for various projects including Satori Engagement (Personal Empowerment) admin panel, DataFirst (Data Processing Tool), and Mortis (Data Processing Tool).
